

Who decides how public funding is spent? YOU!

YOU can make a change in Kalamazoo today!
The Community Development Act Advisory Committee (CDAAC) is currently looking for engaged, civic-minded people to advise the Kalamazoo City Commission on community funding recommendations.

- All city residents welcome!
- Join an active Committee of community and neighborhood representatives who affect positive change.
- During 2008, CDAAC guided \$2 million worth of funding.
- This year, even MORE funding will be distributed, including federal stimulus money.
- CDAAC's role in changing your city will only continue to grow!

You'll attend a short meeting the second Thursday of every month, public hearings a few times a year, and sub-committee meetings as needed.

Interested? Contact Community Planning & Development to learn more about becoming a member.
