INITIAL HEARINGS

The following properties are presented to the board for a public hearing:

**913 Dewey**

This property is located in a Residential District (Use Zone RM-15) in the Edison neighborhood. The 36.2’ x 92.7’ (0.077 acre) property contains a 1,022 sq. ft. 2 story single family residential building built in unknown. Nearby uses are residential dwellings and commercial. There are no historic considerations for this property.

No one was present to represent this property.

Mr. Iveson read into record the Information Summary. Mr. Iveson stated that this property has been stripped down to the exterior substrate. The interior of this structure is in an uninhabitable condition and has remained in this condition for many months. Due to the violations it is a blight on the community and has become a nuisance and is deemed dangerous.
Ms. Luscomb stated the house has been deteriorating prior to Tustin’s purchase of it. When Tustin’s purchased it, they stripped it down with only the benefit of a roofing permit and only half of the roof was completed and it’s down to studs now.

Mr. Iveson’s personal goal for this property is to get it into compliance. Mr. Iveson has been in communication with the Tustin’s within the last month and they have given the City a list of their properties with a priority list. Mr. Iveson wants this property moved up on the Tustin’s priority list to bring into compliance. It is dangerous the way it sits now.

Mr. Emig shared with the board that the Tustin’s have been before the board before and it was contentious.

Structural and exterior repairs for the building are estimated to cost approximately: $48,000. Estimated costs for demolition are approximately $12,000. The 2020 SEV is $21,500. According to Assessor records, the Estimated True Cash value of the land alone is approximately $8,845 and that of the entire property $48,388.

Ms. Vincent stated that this property is not as bad as 913 Dewey because the roof is in tack, but it’s very much an eyesore and a blight to the community.
