It had at great expense and a large investment of money established a manufacturing plant upon the stream, and is injured by the interference which are allowed tobringle in its waters.

The President in reply stated that as present there were a number of petitions before the Board praying for water pipe, but no definite action had been taken in reply to them as it was believed that the lands of power of the village, under the charters had been purchased, for the present, in the making of holding money to lay more pipe. A report upon the subject, however, would be made at an early day.

The Assessors reported that the Assessment Roll of the Village taxes was not yet quite ready, but they would endeavor to perfect it so that it might be ready at the next regular meeting of this Board. The Finance Committee appeared a belief that the estimates of the amount of money necessary to carry on the Government and pay the expenses thereof could be prepared and presented at that meeting.

[Names and amounts listed]

The petition for certain gravel and sand walks referred to a former meeting to the Committee on Street, and referred upon of the meeting to Franklin M. Melton, chairman of said committee. Then motion of Dr. Dayton referred back to said committee with instructions to ascertain facts in order to contain legal heredements.

Dr. Dayton moved that a Committee be appointed to inquire into the practicability of adding the old base street, now vacant for the purposes of a sewer, thereby saving the payment of rent. Carried. The Committee appointed as said committee Franklin Dayton and Williams.

The Clerk was instructed to give notice that the old base street of foundations for the year 1879 commence on a day after the 15th of September 1879, and that the same be given notice that the days are allowed for the collection of said tax, the Clerk of the Township having the power to claim the same in accordance.

Rutledge Williams from the Committee on Railroad Bridge reported the petition of Mr. Franklin W. Adcox asking for a bridge and for employment from Ionia County to the Michigan Central Railroad on the last half of July, which petition the Committee agreed to grant and ordered that the 16 feet bridge be built when the 16 feet bridge is asked for (also on the property of Mr. Phillips of the N.M.C.R.) which they deemed sufficient at present to accommodate the wants of the public. On motion the report of said work was accepted and adopted.

The balance due officers I have having granted to avoid his complaint against the refusal of said persons following up who the Council turns to his great advantage.

A petition was presented anonymously speaking to the fact that the present limits of the town should be expanded to embrace the land bounded by Church Street west, by Park Street north, by Main Street east and south by Main Street. Refused to the committee on limits and bridges.

A petition was presented by A. Dayton to enlarge the College and park, and by the proprietors of the hotel and hotel, representing that the health and beauty interests of the densely built and confined section of our village very much demand an effective system of drainage, and they pray that the Board act to take the necessary steps to afford this needed relief in the shortest possible time.

The motion of J. Allen, a special committee was appointed by the Board to hear the subject at large. Also referred to the Board for determination. Appointed President Potter and Trustees, W. D. M. Naylor, J. Allen and Colton.

The Ladies Library Association petitioned for a free loan of the room now occupied by them in Corporation Hall for a term of five years from the scheduled present term. Judges Wells & H. Brown and C. L. Coit opposed the request in behalf of the Association, and made remarks in favor of retaining the room as the term prayed for by the petition. Was on motion referred to the Finance Committee, who after the Librarian reported in favor of granting the use of the room, as prayed for, by resolution as follows:

Resolved that the Club be authorized to lease to the Ladies Library Association of Kelburn, the room now occupied by them in Corporation Hall for the term of five years from the first day of December next, for the sum of twenty dollars per annum, and conditioned that said Board Association shall keep the said rooms in good repair, and arrange the same as they are at present, any damages by the tenants to compensate.

The Clerk was instructed to sign a lease in accordance with the foregoing resolution.

works to give good streams. He said there had been  
much talk and much blame thrown upon the department  
but Engineer B. asked why he asked that a thorough ex  
namination be made of the works, the hydrants and everything  
about the system, and that the Contract and Office  
be instructed to procure the necessary tools and equip  
meas to aid with them in inspecting the works  

Chief Engineer O'Hall asked the same thing in  

Reference to Sutton Williams. The chair was prepared  

to appoint such a committee. The chair appointed  
Sutton Williams, Colot and Allen as such investigating  

Committee 

Sutton Dayton, in behalf of the Kalamazoo Light

of Michigan's Mounted Rifles, which were the arm

Messrs. Miller, Brooks and Lyford, to rent the room in Corporation Hall next door to the one now occupied by Thomas B. Hall as a reading-room. Considerable discussion ensued, when the proposition was withdrawn owing to all the members opposing themselves as analogous to renting a suite of rooms claiming it proper to keep the same for the storing of apparatus.

of Commissions as provided by the Special Act of Legislature, Nature relative to this case, for the purpose of taking the necessary steps to obtain control of the said Creek by the Village, and make such use of the same, as may be deemed necessary for revenue purposes. In motion, the report was accepted.

The official Committee appointed at the last Regular Meeting to investigate the condition of the Water debts made their report. The report gives a harrowing state of things at different times and the town of Reece, Chapman, Pitzer, and Jackson, practical mechanics objects in the Melting Pit Works & Machinary. The Committee arrived at this conclusion that no more than 800 feet of steam can be obtained at any point in the village and to complete the work, the machinery must be built at a very high rate of speed. The expense of the machinery is not the engine in proper working order, as far as known, being adequate to the above, the engines are being built at a loss, and the knowledge that a tremendous waste of time is required to accomplish this object and that an expenditure of many years is required to accomplish such work. The Committee recommended the abandonment of the undertaking as impracticable and would recommend:

'Vee' of the difficulties of the present factories of the village to be worked by such engines, one at a time being needed to satisfy the demand while the others would be a menace for the purpose. It being then suggested by reference to engineers, your Committee judged it best to leave a change of such works to others in reference to economy of the district and the interests of the village to work out the difficulty in the proper way. The Committee were of opinion that the Board should adopt a plan between Apperson, Hall and the Water Works the present mode of obtaining by means of pumping is burdensome and only partially

'sticture' at present. The cost is also much increased. The report is signed by John Hall, William Cook and Allen. Mr. Brumbaugh the report was accepted.
and referred to the Village Treasurer.

The Village Treasurer presented a statement of the finances
what time his hands were occupied and denied files on his
and his report of his settlement with the
Village Marshal.

On motion of President Ward the Clerk was directed to
give proper notice of the annual Charter election
and on his further motion President Cocks and
Williams were appointed to act as inspectors said
election, and the Clerk was further directed to
be employed as assistant clerk of election. In case
of the absence of one of the above named persons
appointed as inspectors the Clerk was directed to call
upon other members of the Board to act in such
capacity.

On motion of Franklin Webster, the Board adjourned.

Regular Monthly Meeting — Jan'y 5th

(continued)

Jan'y 5th have had the subject matter under consideration and would beg leave to make the following report to this Board, that the law providing for and regulating the assessment of the village requires that after the assessors have assessed the property and before any tax shall be levied, they shall give ten days notice by the publication thereof of the time and place of revising such assessment roll, in order that any parties feeling themselves aggrieved may be heard and the roll may be altered if any omissions be wrongfully assessed. The committee are of the opinion that this requirement of the law was complied with and are unable to find any clause of law which would admit of any change of valuation after the time for revision is past. Taking the view of the subject, however favorably inclined, we are unable to find any law which would justify them in recommending any remittance of taxes levied upon any such valuation, and therefore recommend that the prayers of the complainants be not granted. All of which is hereby respectfully submitted

Justin Bump, from the Committee on fire and water, to whom was referred the petition of the Scott, report, that:

- The sentiments of the members of this body relative to the matter under consideration are.
- They believe that the present committee cannot take any more practical steps to afford the relief asked for in said petition, but at the same time will now give the subject their attention and will cheerfully comply with the wishes of petitioners when any means practicable may be provided to effect the object asked for.

The Committee on Fire & Water reports on this account presented by F. M. Keener, as follows: The Committee suggests that the present Board assume its duties and inasmuch as the fireman remains in the employ of the Board of Public Commissioners for one year after said service is said to have been rendered and earning monthly his salary, that our colleagues for the present cannot either recommend the allowance of said contract.

Justin Dudgeon from the Committee on Fire & Water offers the following report which a motion of T. Dade, having been seconded by H. N. Adkins, was unanimously adopted and passed:

Open Committee to hear and consider the report of the
Regular Monthly Meeting Feb'y 2d

Feb 2, 1874. Holly Manufacturing Company of Schenectady, N.Y., would refer to the Board as follows that after a full investigation of the accounts and explanations made by its Birdwell, Treasurer of said Company, he would recommend the allowance of the sum of Thirteen Hundred dollars ($1,300) said sum to be in full for said account as rendered. Resolved as said account amounted to the sum of two thousand dollars for repairs in the basis of settlement. He found items in said account amounting to $373.64 not disputed, and as the balance due $1,425 was the subject of dispute we offered a compromise by allowing $725. That is exclusive of any account made since the organization of the present Board.

In connection with the foregoing report, after its adoption the following Resolution was offered and unanimously adopted:

proposed your Committee are best to believe that the alleged charges were either of a trivial nature or that the courts were
merely inclined. In regard to the amount of costs charged by the courts, which appeared in the report of the Chief of police
and was commented upon by Members of this Board your Com-
mittiee would here remark that all such comments are for the
recognition of any penalty for a violation of any of the village or-
dinance are commensurate with the costs and the costs follow
the judgment and are taxed by the Court, and if ordered the court
would be liable to an action to the party so injured. Your Committee
are of the opinion that they have no authority to make any inquiry
upon that subject, but would, however, state that they were in-
formed by the Courts that the marked difference in the costs which
was in great measure owing to the time the respondent remained
in jail, and the charges attendant thereon.

The whole amount paid for police duty and jail
fee during the administration of the present Board of Trustees
(exclusive of the Marshal Salary) amounts to the sum of eight hun-
dred and seventy-five dollars and twenty-one cents ($877.21)
and the amount reported to be received by the several Justices
amount to the sum of one hundred and two dollars ($102)
leaving a large balance chargeable to police account, and
clearly demonstrating the fact that our police department
on a financial point of view is an appositive in-
stitution. Taking into consideration the small amount of
fees rendered into the Village Treasury the inference would
necessarily arise that our police department is either defi-
cent or that the high standard of morals in our com-
munity is such as to render police duties as a dis-
count. Proceeding concurring upon this last theory, is the
large police expenditure a judicious one? Your Com-
mittiee are unwilling to assume the responsibility of solving
the above problems, but consider them of sufficient im-
portance to receive the attention of your honorable body;
and respectfully submit the same for your consideration.

Your Committee are of the opinion that in order to preserve
a due regard for and observance of laws and ordinances
arrests for infringements upon the same should be promptly
made, and officer’s assignment and trail of the in-
fracted should follow, and when the facts warrant con-
viction reasonable punishment should be meted out to
offenders, as upon the success and fulfillment of all
these laws depends the permanency of our rules and reglement
March 2d. In conclusion your committee would report that, in accordance with the resolution of your board they have had an interview with the sheriff relative to the reduction of his charges in the cases of persons arrested by the village authorities and confined in the county jail, and would report that they have been unable to effect any reduction of charges the amount of charges made by past sheriff amounted 8th 1873 and up to January 20th 1874, amount to the sum of $103, 40.

Your committee would submit to your honorable board, whether it would be more desirable for confining those persons arrested by the authorities can be adopted.

In connection herewith your committee would recommend that blanks with suitable headings be prepared, and that all persons connected with the police department, including the several justices in the corporation, be requested to make a return of their duty to this Board of Trustees on the first Monday of each month. All of which is respectfully submitted.

of Halunwago; and that the ½ of said lot, conveyed by said Nation to Defield Humphrey, was then after conveyed by said Nation to Defield Humphrey. That Lot No. 2, Block No. 1, was sold for the tax of 1851, and purchased by Geo. M. Clark, as far deed from Austin General, recorded in Book No. 5, Page 31. That on the 19th day of Oct. 1855, the said Geo. M. Clark conveyed by said deed to the Village of Halunwago his interest in the whole of said Lot No. 2. There was, evidently, an error in conveying the whole of said lot, as the records do not show that the village at that time held any interest in the ½ of said lot; and it was certainly the intention of the village authorities to own the title interest — only on that condition of the lot then owned by the village. Your Committee, therefore, recommend that the President of the Village of Halunwago be authorized to deed claim to the interest which said village holds by virtue of said title in the ½ of Lot No. 2, in Block No. 1, to such parties as now hold the title interest; said Francies paying to the village the amount paid by said village, with interest, and all expense of such conveyance, and submit herewith the following resolution:

Resolved, That in accordance with the foregoing report, the President of the Village of Halunwago is hereby authorized to convey by said claim deed a title to the several parties now owning the ½ of said Lot No. 2, in Block No. 1 (according to their respective interests) all interest which said village acquired in and to said ½ of Lot No. 2 by virtue of a deed claim from the said Geo. M. Clark, receivin' Anti. 1851, signed and sealed by said village, the cost of said deed (½), and interest, and all expenses of such conveyance, all of which is respectfully submitted.

Dated, Halunwago, Nov. 28, 1874.
J. L. Clark.

On motion, the foregoing report, with the resolution herewith attached, was read and submitted, therewith, was accepted and adopted.

Petition of Isaac Drum, for correction of error and cancellation of tax roll.

Committee on Streets: Austin Holaday Chairman, to whom had been referred petition for lamp posts, on Howard Avenue, Main Street, and Halstead and 21st Street, was made report in favor of granting same at $1 per lamp. Petition was referred on motion of Austin Dayton was accepted & adopted.

Committee on Streets: Austin Holaday Chairman, to whom had been referred at a previous meeting of the Board matters of procuring steam for street work. Market, was made report that city had contracted with John R. Allen for use of hot water to heat the rear of Halstead house at the sum of $250 per annum, from and after Jan. 1, 1872. On motion the report was adopted, and action of Committee approved.

Special Committee: Austin Holaday as Special Committee to whom was referred at last meeting of the Board, matters of sale of lots in 3rd Addition, for lots of 1871, made report as follows: I find that lots No. 347, Holley Addition, were sold to one Charles Crighton for the sum of $8 and $30 per lot, dated by the seller July 7, 1871. Upon examination of the Assessment roll for said year 1871, I find that said lots, 347, was assessed to one Charles Crighton, the amount of tax being $3.00. This is marked in column for remarks as paid 30 cents, as paid Oct. 1st. I also find lot 27, Holley Add. on same page as paid 30 cents, which is marked in column for remarks as paid 30 cents, as paid Oct. 1st.
Dec. 7th

Examination of the options of land for unpaid taxes in 1869, I find Lot No. 346, returned for an unpaid tax of £360 and as adjourned to Sunday, while Lot No. 427, which was actually adjourned to Sunday, and absented the tax to be unpaid, is not returned. The fact that £360 is returned for the amount of tax adjourned against Lot 427, and Lot 427 not being returned, while it shows on the face that the tax on land is not paid, is presumptive evidence that the Village Marshall, in making his return, made an error in the number of the lot, and returned No. 346, while he should have returned No. 427. Your Committee is satisfied, that the lot on Lot 346 was paid for said year 1869, and therefore was illegally sold.

In the absence of any authority contained in the village charter for canceling such sales, your committee would recommend, that the Clerk of the Board of Trustees be instructed, to notify the purchaser of said Lot 346, at the sale, of the illegality of the sale, and that upon the conveyance of said lot to the true owner, the money paid by him at the sale, with 20 per cent., and when the distribution of such deed, the Village Clerk be instructed to draw an order on the Village Treasurer in favor of said true title purchaser for the amount paid by him, with interest from time of sale.

All of which is respectfully submitted.

Dated: November 21, 1874

On motion of Trustee Bastian, the foregoing report was accepted and adopted.

Trustee Dayton, Chairman of Special Committee, further reports the report of Special Committee for the claim of Buckley estate against the Village, in the matter of opening claims struck. Resolved, that they, have conferred with the Atty. of said estate, representing said claim, and have ascertained that if 600 of the same amount said estate will accept and release the claims. Your Committee recommend, that the matter of said claim be referred to the Atty. of this Village, with instructions to ascertain the liability of any of the Village in the premises, and to contest or defend the claim, as it may appear best for the Village, without further action on the part of the Board.

On motion of Trustee Bastian, the foregoing report was accepted and adopted. And at the suggestion of the Atty. of Buckley estate, was associated with the Village Atty., as a Committee to settle the Buckley claim.
The Committee on Streets submitted a written report in regard to the matter of improving Channel of Village Creek, which was read, and on motion of Justin Thorwood, the Committee were permitted to withdraw the report for the purpose of making such alterations or amendments to same as they may deem proper.

Therefore Resolved, that the Committee on fire control through the Chief Engineer, be hereby authorized to purchase one hundred feet of hose at $1.00 each.

The foregoing resolution was adopted.

of this village, U. O. Kincaid, Superintendent of water works, John Dodge, Esq., late Chairman of Committees on Fire and Water, and to the Statements of Geo. H. Chandler, Chief Engineer at the water works, and Messrs. Merrill & McFarland, owners of Cold Stream Mill.

We now have in use over 11 miles of water pipe, and 160 hydrants. The domestic supply requires the daily consumption of 300,000 gallons of water during the hot season. To give this supply requires about 45 horse power at the water works.

To furnish six effective fire streams from the Main street pipe, in summer season, the investigation of our mains upon the principal fore and economical methods about meeting supply requires the division, should always be available for fire purposes.

Your committee had hoped to be able to report sufficient supports of water-power to maintain our water work, but were greatly disappointed in the result of that investigation.

And the question again recurs, what can be done to reduce the present running expenses of our water works and the investment.

It is believed by your committee that the general management of the fire and water department, should be (subject to the action of this board) under the control of one competent man, who should make all plans of fire, pipe, machinery and other necessary articles and supplies, superintend all construction and repairs, and who should be held to a close and constant accountability for the most rigid economy in all expenditures, and the faithful performance of all duties; and it is believed by your Committee that the adoption of this policy there may be spared annually to the village from $2,000 to $3,000.

The efficiency of our water works may be very much increased by the enlargement of our mains upon the principal streets, as recommended by President Dodge in his report made in this board on the 4th of January, 1875, while acting as Chairman of the Committee on Fire and Water.

Until this becomes necessary and advisable your committee recommend the careful and economical management of the present water works.

Respectfully submitted,

T. B. Beaupre, Chairman Special Committee on Water Works.

Jan, 3, 1876.

Report of Special Committee:

In matters of Application of J. S. Ellsworth to be refunded certain money paid at a Liquor Tax. The Committee made the following report:

"Your Committee to Whom was referred the petition of J. S. Ellsworth in reference to refunding the said fees against him for the sale of liquor, make the following report: They have consulted with the Village Att'y, and it is his opinion that after a tax has been properly assessed, collected and placed to the fund designated, the Board have no right to refund any portion of said money. This identical question arose in Detroit before the judge of the Superior Court of that city. It was argued at length and many authorities cited. The court decided that after a tax had been properly assessed, collected and placed to the proper fund, it must be used for the purpose for which it was collected and no other and that the common council of the city of Detroit had no power to refund the tax or any portion of it. We also find that the Auditor General of the State has been consulted and given the same opinion as above stated. In view of these facts, your Committee would report adversely to the granting of the prayer of the petitioner J. S. Ellsworth."

Signed: C. P. Wayte, J. H. Wagner Committee

1876  Special Meeting Tuesday Eve, May 16, 1876

May 16th  A special meeting of the President and Trustees of the Village of Kalamazoo was held at the Common room, Tuesday evening May 16th, 1876 at 7:30 P.M., by President Breed in the Chair.

Present, Trustees Begg, Bordwell, Burruss, Cellum, Coff, Crosby, Steuart, & Kill.

Minutes of last meeting of the Board read, approved Original Board opened under call of the regular order.

Presentation of Petitions. By Justice Crosby:

Of J.W. Pickard, for license to carry on the business of auctioneer, Commission dealer at 212, N. Burdick St., for 5 years, from May 176-

Of Alvin Wettow, for license to carry on the business of auctioneer, Commission dealer at 210, N. North Burdick St., for 6 years, from May 176-

Of John E. Welch, for license to carry on the business of auctioneer, Commission dealer at 212, N. Rose St., for one year from May 176.

Justice Crosby, Chairman of the Committee on Licenses, recommended granting the several applications as named above of J.W. Pickard, Alvin Wettow and John E. Welch, for licenses to carry on the business of auctioneers, as above.

The recommendation of the Committee on Licenses was adopted.

Reports of Standing Committees:

There were no reports from Standing Committees.

Reports of Special Committee:

President Breed: To whom was referred, at the last meeting of the Board, the petition of W.H. Page and 10 others, praying that a certain drain now running in the Supreme Court of this State entitled "The Village of Kalamazoo vs. Merrill & Co., to determine liability of any of said respondents to erect and maintain a bridge on Postage Street across the Mill race leading to their mill, may be discontinued; submit a report in writing, which report was addressed to granting prayer of petitioners, and the same was on motion of Justice Kill, accepted, adopted, and ordered to be placed on file in Docket of the
Report: The suit referred to in said petition, was
brought by the Village against said defendant,
Merrill V. Scott, in January 1876, to determine liability
of defendant to build and maintain a bridge over their
private mill race on said Village. The suit has been
recently fully tried before a jury in the Circuit Court of
Kalamazoo County, and a verdict was rendered against
said defendant. The defendants now propose to have
a review of the proceedings had before the Supreme
Court of the State upon a writ of error.

The petitioners, who are claiming that this suit may be
discontinued, are among the first citizens of
Kalamazoo; and their request is entitled to due
consideration.

The Corporation of Kalamazoo insists as a matter
of law, that the defendants, Merrill V. Scott, are
obliged to build and maintain a bridge over their private
race on Portage Street, this being done, and this done
is to test their liability, and the question is a proper
one to be urged to a speedy determination, and the
liability fixed between the Corporation & defendants.

The present Board of Trustees did not institute
this suit, and are not responsible for it. Should
the final decision in the case be against the
defendants, it would be a legitimate matter for your
board upon a petition of the defendants for that
purpose, to enquire whether the judgment against
them should not be remitted in whole or in part.

All of which is respectfully submitted
(Signed) J. H. Breede President

Reports of Special Committee.

Trustee Cole, Chairman of Special Committee appointed May 16, "To examine & report the propriety of reducing the salaries of any officers and employees, or of abolishing any office now existing in this Village." Made report as follows:

No. 1.

For the Water Works, we find Mr. Geo. Chumley, the Chief Engineer and his assistants are the right men in the right place, and we think it would be detrimental to the best interests of this village, and the efficiency of the Water Works to make any change at this time. It would be recommended that the Chairman of the Board of this Village be requested to make the best terms he can with them next year, not exceeding the salaries paid them during the last year.

Your Committee also recommended that the salary of the Supt. of Water Works be fixed at Eight Hundred Dollars per annum, and that besides attending to the duties already imposed upon him, he be required to look after the control of the repairing and building of new water mains and clearing the streets of this Village, relieving the Marshal of all such duties.

No. 2.

By this means the Marshal can devote his entire time, except when collecting the Village Taxes, to Police Duties; and would recommend further, that the regular paid Day Police be dispensed with, except it might be, during the time the Marshal is collecting the taxes.

No. 3.

Your Committee also recommends, that the Village Weigher act as Special Policeman at the Government Yards, and attend to the scales, and shall receive as compensation for his services, one half of the receipts of the Village Scales, the other half to be paid into the Treasury of the Village through the Chairman of the Committee on Streets and Bridges as heretofore.

No. 4.

In regard to the Office of Village Attorney. Your Committee report, that after careful consideration, they find that there are grave doubts about this Board having any authority under the Charter of this Village, to appoint an Officer known as Village Attorney, and we would therefore recommend that this Office Be Abolished.

No. 5.

That Ordinance No. 1 of the ordinances of the Village of Kelvyny be amended as follows:--That the word "Attorney" when they occur in Sec. 9, be stricken out, and also that Sec. 11, Seventh (p) of said Ordinances be one be repealed:

(Signed) C. L. Cole, J. H. James; C. L. Cole, Secretary.

Special Meeting Sept 26th 1876

A special meeting of the Board of Directors of the Vilas City Light Company was held at the City Hall in the City of Vilas on Sept 28th, 1876 at 7:30 p.m.

President Brees, in the Chair. Present Directors:

Robert, Frank, Harry, Albert, Fred.

Minute of last regular & special meeting of the Board read & approved. Regular order was called.

President Brees, to whom was referred at last regular meeting of the Board, the petition of Mr. Hayman and others, for improvement of Alley No. Main, running from Burtick Street East to Sweetland Block, made report of which the following is a synopsis:

1st. The petition refers to the Alley in question, to be in bad condition, and asks that the boards be replaced and the street be resurfaced.
2nd. The Committee on Street Grade & Sewerage of the Board to whom the petition was referred, made a report, Sept 27th, recorded on page 198 of the journal, and recommended that said Alley be paved with stone, and that half of the expense thereof be charged against the adjoining property owners, and the other half be paid out of the contingent fund of the village. The report of the Committee was accepted, and on motion of Trustees Cook, the petition and the report of the Committee was referred to your President for further investigation, and to report upon the legal questions involved in the subject matter of the petition, presents three questions:

First: Is the Alley South of Main Street, commencing at Burtick Street & running East to Sweetland Block, and thence North to Main St. a public or private Alley? Second: If the Alley is a public one, has the Board lawful authority to appropriate money from the contingent fund of the village to pay one-half of the expense of paving or blackmailing such Alley, especially for paving stone? Third: The necessity of either paving or blackmailing said Alley, is a question of fact for the Board to decide after the first two provisions are determined. As regards the question, "is the Alley South of Main St. running from Burtick St. East to Sweetland Block and thence North to Main St. a Public Alley?" I find upon a full investigation of the subject that the Alley was surveys and recorded upon the present plan of the Alley, prior to 1853, and that it was of the width of forty feet.
That in 1853, said Alley was changed by the property owners in interest, from forty feet in width to twenty five in width, and that from the date of said change in width, to 1875, no change to the present time, said Alley has been used as a public Alley, or easement, by the Commonwealth of all property owners interested, to pass, using the same for an Alley is concerned. I fail to confine my examination of this question, and from personal knowledge of the use by the public of the Alley in question, that it is fully dedicated to the public use, and that the same is now a public Alley of the Village of Kalamazoo and under the Control and Authority of the Village Board.

In regard to the second proposition — "From the provisions of the Charter there can be no doubt as to what can be paid for out of the General funds of the Village. The grading of the Alley in question can be provided for by the same Act on the taxable property of the Village, and as there, the property owners benefited by the improvement, must pay the same, the expense by the same Act upon their lots by the Village Authorities, according to the provisions of the Village Charter. If it was a matter of discretion, there are convincing proofs in favor of granting prayers of petitioners, but until the law is amended, the Board of Inhabitants can exercise sound discretion."

There is little doubt but that said Alley ought to be paved and if all or even one half of the Contiguous property owners should petition, it would probably be best for the improvement to be made, since the board have the Authority to do paid, planned or repaired, even if nothing more is done by property owners. The necessity and propriety of any further action in the matter, I leave to the judgment of the board of Trustees, of which I respectfully submit the said JF Powers, President of the Board of Trustees.

On motion of Trustee Crosby, the report of the President of which the foregoing is a synopsis, was received and laid over for further consideration.

The Board then adjourned.

Report (p. 3) laid over until next meeting of the Board.

Trustee Berends, Com. on Sr. v. Water
Made report recommending in reference to the Water Works of the Village of which the following is a synopsis — "We have two Piston & two Rotary Pumps at the works all made by the Holly Mfg Co. — For three years past the Rotary's have been comparatively useless both for domestic & fire service, and the Piston Pumps have been in constant use. These pumps have each 12 leatste hinged valves liable to break at any time, especially under fire pressure — During the last eighteen months they have failed at least the time. In case of a fire during or fire the works would be nearly useless as our pumps could not supply more than two streams — The Rotary cannot be run for fire service or with the Piston pumps, as they require a velocity three times greater. The two piston pumps have a capacity of discharging One Million gallons of water in 24 hours — The works are run to their full capacity the peak hours. If the Consumption for the coming year should increase in the ratio of the past 3 years, the present pumps would be entirely inadequate to supply the daily ordinary demand — There should be a 3rd set of Pumpers fitted up to furnish for any contingencies, so that we may have an aggregate that we are fully protected in case of a fire event."
Adjourned Meeting Nov. 14th, 1876

Recommend that the two Rotary pumps be taken out & their places supplied by two good Piston Pumps of the capacity of two million gallons per day. These would supply the village for domestic purposes for many years to come.

Your Committee have several propositions from Manufacturers of Pumps which they will submit for consideration of this Board at any time. — David Burnett, CH Crosby Committee

The foregoing report and recommendation was laid upon the table for future consideration.

Gentlemen

We would respectfully submit the following estimate of the amount of money necessary to be raised by tax in this village.
Regular meeting Monday evening August 5, 1878

Aug. 5.

On the fiscal year ending April 30, 1879 and for the ensuing fiscal year as follows:

To pay debt outstanding Oct. 1, 1878
Interest on bonds
$7,000.00

Vital records
$5,000.00

For water department
$2,000.00

Trinity Church
$3,000.00

Streets, sidewalks, parks, playgrounds
$6,000.00

Police
$1,000.00

Health
$2,000.00

Contingent fund
$3,000.00

Total
$14,000.00
