VI. Disclaimer

Chapter 16, Section 22 of the City of Kalamazoo Code of Ordinance states:

Historical preservation is a public purpose. To serve that purpose, the Historic District Commission is hereby charged with the following responsibilities:

a) The Kalamazoo Historic District Commission is empowered to regulate Work on the exterior of historic resources and non-historic resources in historic districts in the City of Kalamazoo and shall otherwise have all powers invested in Historic District Commissions pursuant to the Local Historic Districts Act, MCLA § 399.201 et seq. 1970 PA 169, as Amended 1992.

b) To regulate Work on resources which, by City ordinance, are historic or non-historic resources located within local historic districts, including but not limited to the moving of any structure into or out of, or the building of any structure in, an historic district.

The following documents are available in the Community Development Department located at 415 East Stockbridge. These documents will help assist property owners in understanding the responsibilities of owning property in a local historic district, MCLA § 399.201 et seq. 1970 PA 169 as Amended 1992 (Michigan Local Historic District Act); Code of Ordinances City of Kalamazoo, Michigan (Chapter 16 - Historic District); Secretary of the Interiors Standards for Rehabilitation & Guidelines for Rehabilitating Historic Buildings, 1990; Standards and Guidelines for Kalamazoo Historic Districts, and maps of Kalamazoo Local Historic Districts. These documents and maps are also available on the city of Kalamazoo website at http://www.kalamazoocity.org/local-historic-districts

VII. HEARINGS

OLD BUSINESS:

a) 521 Stuart

- Owner: Charles Mercadal
- Applicant: same
- Style: Foursquare
- Built: 1905
- Zone: RM-15
- Owned since: 03-05-2009
- Revised plans for new garage (IHA18-0008 Old Application)

Public Comment then Commission Deliberation

NEW BUSINESS:

b) 805 S. Park

- Owner: Matt Bartz
- Style: Italianate
- Built: 1864
- Zone: RM-36
- Owned since: 08/21/1998
- Replace roof on house with standing seam metal (In 2007, HDC approved a standing seam metal roof for the rear wing of the house. (PPZ 18-0013 New Application)

Public Comment then Commission Deliberation
VIII. Approval of Minutes: June 19, 2018 (Item C)

IX. Administrative approvals - June 12, 2018 to July 10, 2018
   a) No building permit required
      Wheaton  528  Fence
      Grand   1213  Window & exterior wood repairs as needed
      Osborne 926  Add storm door on rear NH addition. Replace wdw
      Oak     1006  Rebuild north deck on top of sunroom
      Prairie 145  Repairs to rear 2nd floor deck on bungalow+EWR
      SouthW  729  Charging station for electric car-rear
      SouthW  708  Storm windows 12
      Elm     603  Install missing attic window on N to match S
      ParkS   720  Exterior stair - rebuild NWcorner
      Elm     603  Install missing kitchen window
      Elm     603  Shed

   b) Building permit required
      Eleanor  712  Repairs to ext wood & rear porch, gutters
      Elmwood  822  Roof
      RoseS   730  Roof
      Wheaton  528  Roof
      VineW   611  Exterior stair SE corner
      Monroe  416  Roof

X. Other Business

XI. Adjournment  Question and comments regarding this agenda or the Kalamazoo Historic District Commission should be directed to the Historic Preservation Coordinator at 337-8804.

A note on quorum and Historic District Commission decisions:
City of Kalamazoo Code of Ordinance – Chapter 16 – Historic District Commission – section 19 states:
“A majority of the members of the Commission shall constitute a quorum. A majority of the appointed members is required to take action on all matters not of an administrative nature, but a majority of a quorum may deal with administrative matters.”  All applicants should be aware that the minimum of four of the commissioners must vote for a motion for a decision to be made in all actions. Applicants may choose to postpone their review to the next regularly scheduled meeting of the commission before the commission begins their deliberations if fewer than seven commissioners are present. The postponement form is available from the coordinator and must be filled out and signed before the applicant leaves the meeting.

GUIDELINES FOR PUBLIC PARTICIPATION AT HISTORIC DISTRICT COMMISSION MEETINGS
The Historic District Commission recognizes that citizens who make the effort to attend a Commission meeting often feel passionately about an issue. The following guidelines are not meant to discourage individual expression; rather, they exist to facilitate the orderly conduct of business and to ensure that all citizens who wish to address the Historic District Commission are able to do so in an atmosphere of civility and respect.
• Out of respect for business being conducted during the meeting, turn off all cell phones and pagers prior before the meeting.
• Citizens have opportunities to address the Historic District Commission at the following times during a meeting:
• Address Non-agenda items at the beginning of the meeting. If you wish to speak about a specific review, please wait until that review comes to the commission.
• Consideration of Regular Agenda items. Citizens are permitted to speak to the Commission on project reviews after the applicant has made their presentation and prior to the Historic District Commission discussion. The Chair will call for comments from the public.

ACTION DATE ______________________
Certificate of Appropriateness issued__________________________
Notice of Denial with appeals information________________________
Notice to Proceed ______________________  Comments ______________________

Revised April 26, 2017
The proposed building is a follow-up to a request earlier this year to build a small carport on our structure; we have determined it would be a better long-term solution for us to build a full-sized garage for two cars.

Garage will be situated 3 feet from property at rear (west) end of the lot. Lot is 33' wide, and we plan to divide the space such that 4 1/2' space is open from the edge of the garage to the neighbors' property lines to the north and south.

Additionally:
* The plans call for a sliding window assembly. We will, instead, replace this with a fixed window with two DS pane of glass, one division in the light from top to bottom, with the sill constructed of treated lumber, glazed and painted to match the trim.
* Door construction is not specified in the plans; we will choose a paneled, wood exterior door with windows near the top for added visibility.

RIDGEVENT DETAIL

TYPICAL WALL SECTION @ GABLE

TYPICAL WALL SECTION @ EAVE

BLOCK FOUNDATION WALL DETAIL

MONOLITHIC FOOTING DETAIL
STRUCTURAL/GENERAL NOTES & SPECIFICATIONS

A. General
The following notes shall clarify and supplement the working drawings.

B. Codes & Standards
International Residential Code (IRC) 2012

ASCE 7-05
M.A. Manual (and consistent with all local applicable codes as required by Building Official)

C. Live Loads
Roof: 30 psf
Floors: 40 psf
Stairs & Balcony: 100 psf

D. Soil & Foundation Data
1. Soil bearing data not available. Assumed soil bearing capacity 1200 psf

2. Floor levels down to undisturbed soil of the specified strength with a maximum depth of 1'-0" below grade, or as required by local building official, based on local frost line depth.

3. Center all footings on columns and walls unless specifically dimensioned otherwise.

D. Spans compacted to be well graded and granular with not more than 75 passing a 220 sieve. Place in 6" thick lean mix and compact to 95% modified AASHO density at optimum moisture.

E. Cast-In-Place Concrete and Reinforcing Steel
1. Concrete of the following 28-day strength: 5 ksi. each course (min. 2500 psi max. 6 & 8" steel) for all structural concrete for foundations, slabs and required grade. Maximum sized aggregate "t". All Master Builders Pre-stressed per manufacturer's recommendations to all concrete except footings. Concrete for exterior walls to be air entrained (5% air).

2. Reinforcing steel ASTM A-615 grade 60. Use grade 50 for temperature steel, stairs and doors. Detail, dimension in accordance with the latest edition of AISC "Manual of Standard Practice".

3. Concrete cover on reinforcing steel (clear dimension)
   - Suspended slabs: 3/4" min.
   - Slabs & columns (not V-sharpened) 1 1/2" Non-exposed vertical faces
   - Vertical faces exposed to earth or weather 2 1/2" bottom of footings

4. All plates splices 24 diameter with minimum of 12". Bend outer wall footing bars 12" or inner bar at corners and wall intersections.

5. Provide not, one continuous #4 bar at top and bottom of foundation walls w/ #4 @ 12" o/c. where wall height exceed 12 feet. Provide mix, two continuous #4 bars @ 12" o/c. between footings. Double foundation wall to footing w/ #4 x 1'-0" long 16" o.c. Embedded 6" into footing. (Unshear keys required)

6. Reinforcement around wall and slab openings, with sides of 12" or greater, with two #2 bars at 12" o.c. for slab reinforcement wall to footing w/ #4 x 1'-0" long 16" o.c. Embedded 6" into footing. (Unshear keys required)

7. Slab connections to beams shall be made using either slab drop or lap splice at beam. Provide no crack control joints within 24 hours of pour as required by code.

8. Metal plate reinforcement shall be used in accordance with manufacturer's recommendations. Pre-dimensioned reinforcement shall be coordinated with local building officials.

F. Masonry (as applicable)
1. Hollow masonry units: PN=1600 (half & half) units

2. Mortar type M 5, 1/2 lime prp, read Credit: 2000 psi psa. gravel concrete (7% sand)

4. Place grout in 2" thick layers then 2" high mix.

5. Wall dimensions vertical o/c 65" o/c @ #4 wire bars. Joint relief 4" o/c.

6. Install 2 bars in every joint, walls, walls and corners. Leave end bar in 12" exposed. Provide two bars at outer corners and in beams. Insert RHR #4 at 12" o/c. as required by code.

7. Anchor brick veneer to frame wall as detailed with 11 gage X 1 1/4" x 8" or field made corrugated wall ties @ 16" o.c. on 6" thick wall.

G. Timber and Wood Framing
1. Substitution of wood species identified herein may be approved by local Building Officials and material strength and capacities shall equal or exceed that of the species identified herein.

2. All lumber to be graded per book 16 of the Western Redwood Association (WRA) Inspection Manual.

3. Exposed sheathing, plate, fascia, trim, floors, and ceiling shall be lapped and jointed as required by code.

4. Joints and fasteners (nails) shall have 2 nominal thickness solid blocking at supports.

5. Comply with the latest edition of the NFPA "National Design Specification" as modified by the applicable code for all structural timber requirements.

6. Splice laminated members together with 10d nails @ 12" o.c., staggered. Splice laminates at supports only.

7. Provide cutaway for all bolts bearing on wood.

8. All nails shall be common wire nails.

9. Glue-laminated timbers, Douglas Fir. A17C grade. Kneering combination 2X6-5V for strength class 1A for vertical spaces. Dry conditions of use. Architectural appearance grade 2. (See Fig. no. 1.) Individual members.

10. Plywood, Roof sheathing to be 1/2" 2X8 glue-laminated plywood with exterior glue. Plan 24" x 48" (3-4'x5') for panelized roofs. Nailing 6d @ 6" o.c. at panel edges and 4d @ 12" o.c. at intermediate supports. Sub-floors to be 1/2" 2X8 glue-laminated plywood, Plan 24" x 48" (3-4'x5') at panel edges and 1/2" 2X6 at intermediate supports.

11. Pre-fabricated trusses shall be designed by approved state licensed engineer in accordance with procedures shown in the drawings. Contractor shall verify approved dimensions and conditions prior to truss fabrication and coordinate as required. All engineering data shall be made available for submission to the Building Official as required.

H. Structural Steel
1. All steel, except tubular ASTM A-36. Pipe ASTM A-53 Type E or S, grade B. Tubular section ASTM A500, grade B. All bolts ASTM A193/7

2. All fabrication, erection and detailing shall be conducted in accordance with the latest edition of the "Manual of Steel Construction" of the American Institute of Steel Construction.

3. All welding by WRCO certified welders in accordance with the "Welding Handbook" by the American Welding Society.

4. All welds "1/4" min. continuous fillet welds using AWS86, E60XX electrodes.

5. Provide washers on all bolted connections.

6. All steel not embedded in concrete shall receive one shop coat of an approved primer paint. Apply two coats of heavy asphalt paint to all steel exposed to earth.

7. Furnish complete shop drawings prior to fabrication.

I. Miscellaneous
1. Contractor shall verify all site conditions and dimensions in field.

2. Provide temporary framing as required until permanent connections and stiffening have been installed.

3. Verify size and location of all openings in floors, roof and walls and coordinate with electrical and mechanical work.

4. Prohibited items shall be handled and installed in accordance with manufacturer's recommendations. Pre-dimensioned assemblies shall be coordinated with local building officials.

5. All EAV detail shall be determined by owner and contractor specific to this project and required by all applicable codes. Performance data and distribution layout shall be provided by mechanical subcontractor. All EAV equipment shall be installed in accordance with the applicable code.

6. It is the intent of these drawings and specifications to comply with the requirements of the applicable Building Code and all other relevant codes and ordinances. Any discrepancy, omission or error shall be brought to the attention of the designer for clarification or correction before beginning the work. It is the responsibility of the general contractor to seek clarification or correction if needed.

PROPOSAL
A. Build two stall garage

OBSERVATIONS
1. Proposed new garage will have

1) **Secretary of the Interior Standards for Rehabilitation:**
(Standards 1-8 do not apply to new construction)

#9: New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

#10: New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

- The proposed new garage is simple and is compatible with the historic homes and carriage barns in the district.
- The proposed new garage is differentiated from the nearby historic houses by materials and design.
- The new garage is not attached to the existing historic houses or any other historic resource in the area.

(2) Local Design Guidelines: Kalamazoo Historic District Commission Standards and Guidelines (pages 50 and 51) state:
Infill construction within a historic district should complement the other structures in the neighborhood in scale and design. Placement on the lot is very important in maintaining the rhythm of the streetscape.

- The new garage complements the house on this lot. The overall design and placement on the lot complies with the HDC Standards and Guidelines for new construction.

(3) The construction of the two-stall garage will have a minimal visual impact on the historical value of the surrounding area.

(4) The construction of the two-stall garage will have a minimal visual impact on the architectural character of the surrounding area.

(5) The design of two-stall garage has a compatible exterior design for a historic district including location on the site, arrangement of the features, texture of the exterior cladding and materials proposed to be used are compatible with the surrounding historic district;

(6) Any other factor, including aesthetic, which it deems to be pertinent.

COMMISSION ACTIONS (Options):
1. Approve as complying with Secretary of the Interior Standards 9 & 10 with approval of final details delegated to the historic preservation coordinator.
2. The commission could postpone with the applicants consent, to ask for more details or to prepare a revised plan. The revised plan should include the following changes:
   1. ___________________________________________
   2. ___________________________________________

   If the applicant does not consent to a postponement, the commission must make a decision at this meeting to comply with the 60 day rule.
3. The commission could deny, based on Secretary of the Interior Standards #9 & #10.

+++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++++
Secretary of the Interior's Standards for Rehabilitation
The Secretary of the Interior’s Standards for Rehabilitation are ten basic principles created to help preserve the distinctive character of a historic building and its site, while allowing for reasonable change to meet new needs. The Standards are applied to projects in a reasonable manner, taking into consideration economic and technical feasibility.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.
APPLICATION FOR PROJECT REVIEW – Historic District Commission Hearing

COMPLETE Applications for review at the Historic District Commission meeting including payment of the $85 hearing fee must be received by NOON on the 2nd Tuesday of the month- the meeting is on the 3rd Tuesday of the month.

Property address  805 South Park
Applicant    Matt Bartz
Owner        Matt Bartz
Received     07/10/18
CASE # PPZ 18-0013
Year built: 1864
Owned since 08/21/1998
Meeting date: July 17, 2018

Previous reviews (HDC = commission meeting; Admin = administrative approval):
2000 – 12 items of exterior repair (HDC)
2001 – south/side porch rails and skirt (Admin)
2007 – Roof over north side porch (HDC)
2007 – Rail height/infill waiver (Admin)
2007 – replace roof on rear/east wing with standing seam metal (HDC)

Historic District South Street – Vine Area
Zoning RM-36 (Residential, Multi-Dwelling)

Additional Permits required – building
Rental History: Rental certified – applied good through 01/22/019

Proposed Work:
1. Replace existing low pitched roof with standing seam metal

Observations:
• The roof is extremely low pitched and is barely visible from the public right of way.
• In 2007, the Historic District Commission approved the replacement of the roof on the rear (east) wing with standing seam metal. That work was never completed.

Applicable Criteria
(1) Secretary of the Interior Standards for Rehabilitation
#6 Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

COMMISSION ACTIONS (Motions):
a. Approve the standing seam metal roof as specified. The plan substantially complies with Secretary of the Interior Standards #6. Approval of any final details to be delegated to the historic preservation coordinator.
b. The commission could postpone with the applicants consent, to ask for more details. The applicant will need to be present for review at the next scheduled Historic District Commission meeting.

c. The commission could deny, based on Secretary of the Interior Standard #1-6.

Secretary of the Interior's Standards for Rehabilitation

The Secretary of the Interior's Standards for Rehabilitation are ten basic principles created to help preserve the distinctive character of a historic building and its site, while allowing for reasonable change to meet new needs. The Standards are applied to projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.
CERTIFICATE OF APPROPRIATENESS

Date of Issue: 03/22/2007

PROPERTY ADDRESS: 805 S PARK ST

OWNER: PAUL BARTZ & MATTHEW J BART, 805 S PARK ST, KALAMAZOO, MI 49001

Applicant:

Case Number: IHA 07-0014

Historic District: South Street-Vine Area

Date of Application: January 31, 2007

At the MArch 20, 2007 meeting of the Historic District Commission, your request to for the work specified below was APPROVED in accordance with Chapter 16 of the Code of Ordinance of the City of Kalamazoo and Michigan Compiled Laws 399.205.

1. Replace the existing rear/east wing roof with standing seam metal.
2. Build new rear porch extending along east face of east exterior enclosed staircase, including at the base of the east exterior enclosed staircase. Design of the new porch is to closely replicate the porch across the far east wall of the rear/east wing of the house in design and trim details including, but not entirely limited to header, frieze boards, posts and rails. All work will comply with the Kalamazoo Historic District Commission Standards and Guidelines for Rehabilitation - Porches.
3. The owner is to provide measurements of the new porch.
4. Any changes to the plans as presented can be worked out with the coordinator.

NOTE: Any unpainted wood must be painted within six months of installation. The request was found to be in compliance with Historic District Standards and Guidelines and to be in substantial compliance with The Secretary of the Interior's Standards (Standards #6 and 9). This certificate is valid for 6 months from the date of issue. (Call 337-8804 for renewals.)

Please contact staff when the approved work has been completed or if a decision is made not to pursue the project. If you have any further questions about this project, Historic District Commission Standards and Guidelines for Rehabilitation, applying for the homeowner's and commercial tax credits for your building or assistance in planning future projects, please call the coordinator at 337-8804, Monday through Friday, 8AM to 5PM.

A separate building permit XX is may be is not REQUIRED.

Building permits are available from the Housing and Buildings Division at the Development Center at 445 West Michigan.

Please post the enclosed green sign on the structure so it is visible from the street when work begins and contact staff for final clearance of completed work. (337-8804)

IMPORTANT: Historic District Commission approval does NOT constitute a blanket approval to begin work. It is
the owner's responsibility to obtain all necessary Building Permits, site plan review or Housing (rental inspections) approval for the proposed work. It is HIGHLY RECOMMENDED that the owner or applicant call 337-8026 to inquire about building permits, or, if this is a rental property, contact your inspector.

Sharon Ferraro, Historic Preservation Coordinator                  Date

cc: property file
This page left blank for packets.
Members Present: Grant Fletcher, John Mitchell, Andrew Grayson, Bob Oudsema, Dana Underwood, B.J Shell and Jeremy Berg

Members Absent: None

City Staff: Sharon Ferraro, Historic Preservation Coordinator; Kerrie LeClercq, Recording Secretary

Guests: Nicole Sabel, Chris Horvat (applicant), and Tom Tishler (applicant)

I. CALL TO ORDER

Mr. Fletcher called the meeting to order at 5:00 p.m.

II. APPROVAL OF ABSENCES

No Commission members were absent.

III. APPROVAL OF AGENDA

Ms. Underwood, supported by Mr. Grayson, made a motion for the approval of the agenda for the June 19, 2018 Historic District Commission meeting. With a unanimous vote, the motion carried.

IV. PUBLIC COMMENT ON NON-AGENDA ITEMS

None

V. DISCLAIMER

Ms. Ferraro read the disclaimer into the record.
VI. HEARINGS

OLD BUSINESS

a) 722 West Cedar

Owner: Kal Co Land Bank
Applicant: Kal Val Habitat for Humanity
Style: Vacant Lot
Built: House demolished in May 2018
Zone: RM-15
Owned since:
Revise plan for new house
(IHA 11-0327 Old Application)
Public Comment then Commission Deliberation

Mr. Tom Tishler, Habitat for Humanity Construction Director, was present to represent the property. The previous house located on the property has been demolished and Habitat for Humanity is ready to build a new one. The plans were approved in 2014, with an understanding that the design might change. A list of materials was submitted with the original plans and was approved at that time. There has been a bit of redesigning and added elements – the windows are slightly taller to remain consistent with the historic design of the area, fish scale shingles on gable ends, decorative posts on the front porch, a short railing, and windows lined up on the left side of the home in a farmhouse style. Ms. Ferraro offered a brief background of the property and its decline. As soon as he has obtained approval, Mr. Tishler will be applying for a building permit. Mr. Mitchell pointed out that the new owner will have sweat equity in the property through the Habitat program. Ms. Ferraro stated that the final details of the windows may need to be reviewed to ensure that they are in keeping with the historical nature of the area. Mr. Tishler advised that he will submit a final list of materials to Ms. Ferraro.

Mr. Mitchell made a motion to approve the new design for the house as meeting Secretary of the Interior Standard for Rehabilitation #10. Approval of any final details, including but not limited to the windows and porch posts, shall be delegated to the Historic Preservation Coordinator. The motion was supported by Mr. Bell and passed unanimously in a roll call vote.

NEW BUSINESS

b) 808-810 West South

Owner: Chris Horvat
Style: Colonial
Built: 1915
Zone: RM-15
Owned since: 5/8/96
Rebuild deteriorating third floor front (south) gable so it is taller
(PPZ 18-0012 New Application)
Public Comment then Commission Deliberation

Mr. Chris Horvat was present as the owner of the property. The front gable of the home is failing and is falling into the house. It’s pitched inward and something needs to be
done to increase the floor space in the attic. In 1999, the Historic District Commission approved an alteration of the gable in concept, but the alteration did not take place. Mr. Horvat stated that once the project has been completed, it will not alter in appearance to any great extent. Mr. Horvat would also like to work on the decorative trim, and he advised that the half circle window is in poor shape. The proposed work involves adding a taller gable to replace the short, deteriorating south-facing gable on the third floor.

A motion was made by Mr. Berg, supported by Mr. Grayson, to approve the enlarged gable as specified, as the plan substantially complies with the Secretary of the Interior Standards #1 and #6. Approval of any final details will be delegated to the Historical Preservation Coordinator, including review of the final drawings. A roll call vote was taken and the motion passed unanimously.

VIII. APPROVAL OF MINUTES

Mr. Berg inquired as to whether the section regarding 218 Allen Boulevard under Other Business was an accurate depiction of the Historic District Commission’s final consensus regarding the enlarged ramp plans that had been submitted for Commission review during the May 2018 HDC meeting. After some discussion, it was agreed that the minutes were accurate.

Mr. Oudsema, supported by Ms. Underwood, moved to approve the minutes for the May 15, 2018 Historic District Commission meeting. The motion passed unanimously.

IX. ADMINISTRATIVE APPROVALS

No building permit required:

a) 1209 Grand – Gutters, repairs, remove NH false wall at rear
b) 426 Sprague – Basement windows to glass block
c) 426 Sprague – Garage roof and repairs

Historic District Commission Minutes
June 19, 2018
Page 4 of 5

q) 712 West Lovell – Door-front screen door
r) 528 Wheaton - Fence
s) 1213 Grand – Window and exterior wood repairs as needed
t) 926 Osborne – Add storm door on rear NH addition, replace window

Building permit required:

a) 911 South Park - Roof
b) 530 West Cedar - Roof
c) 520 Douglas – Roof

There were no questions or comments from Commission members regarding these agenda items.

X. OTHER BUSINESS

a) Ms. Ferraro advised that the numbers of Administrative Approvals for small projects is increasing as the weather has improved.

b) Ms. Underwood asked a procedural/process question. Applicants have occasionally mentioned, during their presentations to the Commission, that they have received “previous approval”. Ms. Underwood inquired if it was common practice to adhere to previous approval, if it had been given. Ms. Ferraro answered in the affirmative, unless there was a substantial change in the plans or project details. Ms. Underwood then asked if there was a time limit on considering previous approval as precedent. Ms. Ferraro responded that it depended upon the circumstances, and each project was reviewed on a case by case basis. Usually, if there was a significant change, Ms. Ferraro would bring the project back before the Historic District Commission for review, although no additional fee would be assessed.

c) Ms. Ferraro offered a brief update regarding the 2018 Hidden Kalamazoo Tour. There was slightly less turnout than in previous years, but that may have been a result of the extreme heat. She stated that they are considering doing a tour of South Street in 2019.
XI. ADJOURNMENT

Mr. Oudsema moved to adjourn the meeting, supported by Mr. Berg and approved unanimously.

The meeting adjourned at 5:49 p.m.
