

Community Housing Conversation, 10/25/18, Second Baptist Church

working well	ideas for improvement	challenge areas
utilization of the Mission, getting connected to available support services	call backs from service providers to residents in a timely fashion	limited ability to enroll in programs more than once
mobility of support service access in the neighborhood	bringing support services to where people are (mobile supports)	housing challenges in area of schools for children
connection support services are good for some but not for everyone	improve both the system of complaints & time in recovering response/action as a result	lack of childcare; contributing to job loss & housing crisis
	differentiate supports for various audience of homeless	lack of access to tracks of upward mobility
	create opportunities for interactions between service providers/clients to identify solutions	expense of application fees for vouchers/programs
	need for local registered housing authority to manage landlords & housing in the community	dealing with slumlords & unhealthy housing availability; losing voucher when moving out
	replicat places like Rickman House to provide complete wrap around services	frustrations over issues with accessing services or navigating systems
	base affordable housing levels on city median income	feeling of having 'no power' in the system
	more long-term housing & support service options for mental health needs	earned income NOT enough
		challenges in landlord/tenant relationships
		need for more inspections of complaints over unsafe/unhealthy housing
		need to channel revenue into the right support services
		resources for <i>maintaining</i> a place once entered into
