Use Variance

When granting any variance, the Zoning Board of Appeals must ensure that the spirit of the ordinance is observed, public safety secured and substantial justice done. The Board shall approve a Use Variance on a finding there is competent, material, and substantial evidence in the record that all of the following standards are met:

1. The literal interpretation and enforcement of the terms and provisions of this Ordinance would deprive the applicant for all practical purposes from using the property for a permitted use identified in Sec. 4.1: Use Table, which is a right commonly enjoyed by other land in the same zone district.

2. There is unnecessary hardship based on special circumstances or conditions that are peculiar to the land or structure for which the use variance is sought that is not applicable to other land or structures in the same zone district.

3. The special circumstances are not the result of the actions of the applicant.

4. The granting of the variance is the minimum action that will make possible the use of the land or structure that is not contrary to the public interest, and that would carry out the spirit of this Ordinance.

5. The granting of the variance will not adversely affect adjacent land in a material way.

6. The granting of the variance will be generally consistent with the purposes and intent of this Ordinance.
Dimensional Variance

When granting any variance, the Zoning Board of Appeals must ensure that the spirit of the ordinance is observed, public safety secured and substantial justice done. The Board shall approve a Dimensional Variance on a finding there is competent, material, and substantial evidence in the record that all of the following standards are met:

1. There are special circumstances or conditions (like exceptional topographic conditions, narrowness, shallowness, or the shape of property) that are peculiar to the land or structure for which the variance is sought, that is not applicable to other land or structures in the same zone district.

2. The special circumstances are not the result of the actions of the applicant or titleholder of the land.

3. The literal interpretation and enforcement of the terms and provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other land in the same zone district, and would cause practical difficulty.

4. The granting of the variance is the minimum action that will make possible the use of the land or structure that is not contrary to the public interest, and that would carry out the spirit of this Ordinance.

5. The granting of the variance will not adversely affect adjacent land in a material way.

6. The granting of the variance will be generally consistent with the purposes and intent of this Ordinance.

7. Where the requested dimensional variance involves required landscaping, the Zoning Board of Appeals may grant a variance upon the following additional criteria:

   a. Existing landscaping, screening or wetlands intended to be preserved meets the intent of this section.

   b. The landscape design proposed by the applicant meets the intent of this section.

   c. There is a steep change in topography that would limit the benefits of required landscaping.

   d. The proposed building and parking lot placement is setback well beyond the minimum required.

   e. The abutting or adjacent land is developed or will be developed in the near future with a use other than residential.

   f. Similar conditions to the above exist such that no good purpose would be served by providing the landscaping or screening required.
